METALTECH 2017 SET TO UNVEIL THE FUTURE OF MANUFACTURING TECHNOLOGY

Industry 4.0 and innovative technology set to prominently feature during this year's exhibition

METALTECH, ASEAN International Machine Tools and Metalworking Technology Exhibition – aims to bring together all progressive-minded representatives across the globe for new innovation of future technologies.

In an era of unprecedented technological advancement, METALTECH, ASEAN's premier machine tools and metalworking technology exhibition, is once again set to provide the ideal platform for industry leaders and decision makers to gather and stay abreast of the latest developments.

Organisers Trade Link ITE Sdn. Bhd. are pleased to officially announce that METALTECH 2017, along with its long established co-exhibition AUTOMEX, will be held from the 24 - 27 May 2017 at the Putra World Trade Centre (PWTC) in Kuala Lumpur.

The prominent exhibition is once more expected to draw a record turnout, with 2,000 participating companies from 38 countries over 35,000 sqm of gross exhibition space projected to pull in close to 20,000 regional and international visitors over the event's four-day duration.

The theme of METALTECH 2017 looks ahead to the future of manufacturing, with topics such as Industry 4.0, the 'Internet of Things' (IoT) and smart factory innovations set to feature heavily in the exhibition as well as during a substantially larger lineup of seminars.

METALTECH catching up with new technology– *Enlightened Overseas exhibitors as they get a glimpse of new technology in the market.*

“METALTECH in Kuala Lumpur is the most important meeting point for all players in the metalworking sector, both manufacturers and users, and now it is also becoming an innovation forum. Manufacturers of production technology from all over the world will be showing what solutions exist for generating maximised customer benefit from the digitisation and networking of product operations,” said Kim Willis, CEO South East Asia, ITE Group PLC.

METALTECH 2017 is further excited to launch the first VIP Buyers Club this year, an exclusive invite-only club for selected METALTECH trade visitors and the region's leading professionals who directly influence the purchasing of products and services within the machine tools, metalworking and manufacturing industries in Malaysia. The club provides its members with exclusive benefits, including the facilitation of relationship building, customised assistance and special VIP services before, during and after the exhibition.

After its resounding success last year, METALTECH 2017 will once again feature its Business Matching Programme, a unique platform that enhances the opportunities for both traders and exhibitors to foster meaningful business connections at the exhibition. The programme uses an innovative system to match international exhibitors seeking local distributors with local companies looking to sell world-class metalworking technology in Malaysia.

Once again, METALTECH will also feature its established co-exhibition, the Automation Technology Exhibition (AUTOMEX), an industry leading automation and manufacturing exhibition now in its 10th year. Attracting exhibitors and visitors from around the world, AUTOMEX is the ultimate showcase of the latest technologies in automation and manufacturing processes, while featuring a variety of robotics, assembly and machine-vision solutions.

All in all, the exhibition will be an exciting platform for turnkey technology and solutions catering to various industries including aerospace, automotive, marine/offshore, metalworking, energy, electrical, electronics and medical, amongst others. METALTECH owes this tremendous reach in part to the support of various government agencies, including the Ministry of International Trade and Industry (MITI), the Malaysian External Trade Development Corporation (MATRADE), the Malaysian Investment Development Authority (MIDA) as well as the Ministry of Science and Technology (MOSTI).

METALTECH 2017 visitor online pre-registration is now open for industry professionals.

ABOUT METALTECH:

METALTECH Malaysia 2017 is organised by Trade Link ITE Sdn. Bhd. and is the 23rd ASEAN International Machine Tools and Metalworking Technology Exhibition.

Running concurrent to METALTECH 2017 for the 10th year is the Automation Technology Exhibition & Conference (AUTOMEX), the Malaysian event for all automation professionals with a comprehensive showcase of automation technologies focused on specific industry and commercial applications.

ABOUT THE SHOW ORGANISER :

Trade Link ITE Sdn Bhd are Malaysia's largest home-grown organiser of exhibitions and specialised events, creating high profile, targeted industry events where suppliers and buyers come together in a business setting to do business. Every year, Trade Link exhibitions and specialised events bring together tens of thousands of exhibitors and buyers from around the world, with a focus on creating conducive environments where connections can be built and strengthened.
