Welcome Message

**Gerard Leeuwenburgh**

Country General Manager,
Informa Markets Malaysia

It gives me great pleasure to welcome you to AUTOMEX Penang 2025 – a truly special milestone as we bring this leading manufacturing technology event to Penang for the very first time.

After 14 successful years of co-locating with METALTECH in Kuala Lumpur, we are thrilled to expand our presence to Penang – the heart of Malaysia's advanced manufacturing sector. This move reaffirms our commitment to supporting the Northern Corridor's vibrant industrial ecosystem and bringing world-class technologies and expertise closer to the innovators driving Malaysia's progress.

The inaugural edition is set to feature over 200 participating brands and welcome more than 5,000 trade visitors, creating a dynamic platform for partnerships, technology adoption, and business growth. Through this event, we aim to strengthen collaboration among manufacturers, technology providers, and solution experts to shape the future of Malaysian manufacturing.

AUTOMEX Penang will showcase the latest trends, breakthrough technologies, and future-ready solutions. From advanced machinery and robotics to digital systems and materials innovation, the exhibition floor promises to inspire progress, boost productivity, and enhance competitiveness across the industry.

Over the years, AUTOMEX has built a proud legacy of connecting thousands of buyers and suppliers, fostering innovation, and driving industry advancement. I am confident that AUTOMEX Penang 2025 will build on this success, delivering meaningful connections and lasting value for all participants.

Thank you.

Welcome Message

**Geonice Chong**

Deputy Event Director,
Informa Markets Malaysia

With AUTOMEX Penang 2025, we open an exciting new chapter in Malaysia's manufacturing journey. This inaugural edition is more than an expansion - it's a celebration of innovation, collaboration, and progress as we bring the nation's leading automation and manufacturing technology platform to Penang, the pulse of Malaysia's industrial excellence.

Automation continues to be the driving force of modern manufacturing. As industries across the region accelerate digital transformation, the need for smarter, faster, and more sustainable production systems has never been greater. For the past 14 years, AUTOMEX in Kuala Lumpur has championed this evolution, serving as a trusted platform where ideas, technologies, and partnerships take shape.

Our move to Penang is both natural and timely. As Malaysia's epicentre of advanced manufacturing and semiconductor innovation, Penang is home to a dynamic ecosystem of global enterprises, forward-thinking SMEs, and world-class engineering talent. With this debut, we aim to create new opportunities for engagement, thought leadership, and strategic collaboration that align with the region's ambitious growth agenda.

This year's edition presents a comprehensive showcase of innovations, complemented by expert-led seminars and immersive live demonstrations - designed to inspire and catalyse meaningful partnerships.

I invite you to make the most of your experience. Explore groundbreaking technologies, exchange ideas, and witness innovation in action. May you leave AUTOMEX Penang 2025 inspired, connected, and ready to shape the next era of manufacturing excellence.

Thank you for joining us on this exciting journey.

Welcome Message

**Dato' Seri Wong Siew Hai**

President,
Malaysia Semiconductor Industry
Association (MSIA)

I am delighted to extend my warm congratulations and full support to AUTOMEX Penang 2025, an important milestone for Malaysia's automation and manufacturing community.

The expansion of AUTOMEX to Penang, Malaysia's "Silicon Valley of the East," marks an exciting chapter in the nation's industrial journey. With its world-class semiconductor ecosystem, innovative talent pool, and strong base of global and local manufacturers, Penang is perfectly positioned to spearhead the next wave of industrial transformation.

As the leading voice of Malaysia's semiconductor industry, the Malaysia Semiconductor Industry Association (MSIA) plays a vital role in shaping Malaysia's high-tech future. Representing more than 350 members across the semiconductor value chain, from multinational corporations to local SMEs, MSIA drives collaboration, advances policies, nurtures talent, and champions Malaysia's position in the global semiconductor arena.

We are proud to organise the Silicon Malaysia Conference 2025 (SMC 2025) in conjunction with AUTOMEX Penang. This dynamic platform will bring together global leaders, innovators, and policymakers to explore how Malaysia can further strengthen its position in semiconductor and advanced manufacturing excellence.

Automation, robotics, smart manufacturing and data-driven technologies are more than tools, they are engines of growth. Through pivotal platforms like AUTOMEX Penang and SMC 2025, MSIA continues to champion innovation and collaboration, empowering our members to lead the shift from "Made in Malaysia" to "Made by Malaysia."

On behalf of MSIA, I wish everyone a fruitful and inspiring experience at AUTOMEX Penang 2025. Together, let us shape the next era of Malaysia's industrial excellence, one defined by innovation, partnership, and shared progress.

Thank you.

Show Information

Date: 4 – 6 November 2025

Opening Hours:

4 – 5 November (Tues – Wed):

10:00am – 5:00pm

6 November (Thurs):

10:00am – 4:00pm

Venue:

Setia SPICE Convention Center
Penang, Malaysia

ADMISSION POLICY

Minors **below 18 years** of age will not be permitted into the Exhibition and Seminars Hall.

The dress code is strictly **business attire**. The following dress code/attire is **NOT allowed entry** into the exhibition halls:

- Shorts/Bermudas
- Singlet/Sleeveless Shirt/Sleeveless T-shirt
- Slippers/Flip-Flops
- Uncovered Footwear

AUTOMEX Penang is strictly open to **trade, professional and business visitors** by invitation and business card registration only.

Unauthorised photography or filming is strictly prohibited at the event. Prior written approval from the organisers is required for any photography or filming activities.

Distribution of **unauthorised publications or materials** within the exhibition venue is strictly prohibited.

Attendees are responsible for their personal belongings. The Organiser is not liable for any lost or stolen items during the event.

Badge holders are strictly prohibited from allowing anyone other than themselves to wear their badges. Any instances of non-compliance with this policy are subject to immediate action, including the removal of both the badge holder and the individual wearing the badge from the event premises.

The Organiser reserves the right to refuse entry to any person(s) into the Exhibition and Seminar Hall.

Setia SPICE Convention Centre Arrival Guide

Setia SPICE Convention Centre in Penang is Malaysia's first international M.I.C.E hub and the world's first hybrid solar-powered venue. As a premier destination for exhibitions, conferences, and large-scale events, it offers state-of-the-art facilities, spacious halls, and eco-friendly architecture designed for both comfort and sustainability. Strategically located in the heart of Bayan Lepas, just minutes away from Penang International Airport and major hotels, Setia SPICE Convention Centre provides seamless accessibility for local and international visitors alike.

Address: 108C, Jalan Tun Dr Awang, Bayan Baru, 11900 Bayan Lepas, Pulau Pinang

By Car:

From George Town:
Roughly 25 minutes via Tun Dr Lim Chong Eu Expressway

From Penang International Airport:
Just 10 minutes away

Parking is available at the SPICE Complex
(follow directional signage to the multi-level car park)

By Public Transport:

Rapid Penang Bus Routes:
102, 306, and 401E stop near the venue

Grab / E-hailing: Simply key in Setia SPICE Convention Centre for drop-off at the Main Entrance (Level 2).

A compact, integrated, and intelligent solution of :
Gear + Servo Motor + Drive.

- *Best fit for AGV or AMR driving.
- *Compact size achieved by in-wheel structure.
- *Easy installation and commissioning.
- *Filled with long-life

STH WIRE INDUSTRY (M) SDN BHD

Booth No:2178

MCM Plant-Based Cutting Fluids

MCM Plant-Based Cutting Fluids are specially formulated from renewable, bio-based ingredients to deliver outstanding lubrication and cooling for CNC machining and metalworking processes. Unlike traditional mineral oil or synthetic coolants, our eco-friendly formulation is non-toxic, biodegradable, and worker-safe.

SYNCHRO FOCUS ENGINEERING SDN BHD

Booth No:2030

Air Compressor

Zero Oil-Injected Air Bearing Turbo Compressor,
Highest Energy Efficiency, Stable, Convenience,
Patented and Certified, and Widest Product Line-Up

Buyer's Guide

Product Highlight

T.A.E ENGINEERING WORKS SDN BHD

Booth No:2245

Precision Machining and Assemblies

TAE produces precision turned and milled parts and highly complex 5-axes machining and assemblies for esteemed companies in mechanical engineering, the automotive sector, mining, and advanced manufacturing.

T.E.M AUTOMATION SDN BHD

Booth No:2230

LPL Linear Actuator

Delta's Pick & Place Solution integrates a Linear Pocket Actuator and AC Servo System with a customizable platform, allowing instant switching between position, velocity, and torque modes for precise pick, place, and press motions.

TCHSOON SDN BHD

Booth No:2268

Conveyor System Solutions

TCHSOON conveyor systems feature modular, customizable designs for efficient material handling. Combining drives, carriers, and modules, they enable quick setup, maximize space, and boost productivity—delivering flexible, high-performance solutions that enhance workflow efficiency and add real value to your production operations.

Buyer's Guide

Product Highlight

TEKMARK SDN BHD

Booth No:2014

Smarter Automation Powered by PUDU Robotics

Experience the future of automation with award-winning PUDU Robots for delivering intelligent solutions for cleaning, material handling, and delivery. From factories to production facilities, our smart robots boost efficiency, reduce costs, and redefine productivity with precision and reliability.

TOOLS & MACHINERY PARTS SUPPLIES SDN BHD

Booth No:2180

INSIGHTqcx™ Cordless Multi-Tool Controller

Offering a full range of assembly solutions covering all tightening classes from less critical to most critical. Supports precise control, wireless efficiency, and ergonomic safety. Offerings include responsive tightening systems with programmable impact tools for precision assembly.

TSM ROBOTICS AUTOMATION SDN BHD

Booth No:2040

Raw Material KupperLux

KupperLux – Material Innovation. Offers five copper alloy classes: Pure Copper, Chromium Copper, Zirconium Copper, Nickel-Silicon-Chromium Copper, and Beryllium Copper. Engineered for EDM tooling, welding, semiconductor, and mold applications requiring high conductivity, strength, wear resistance, and precision performance.

Buyer's Guide

Product Highlight

TURCK BANNER MALAYSIA SDN BHD

Booth No:2249

Turck Banner Malaysia - Products at a Glance

We specialize in sensors, fieldbus, connectivity, RFID, interface technology, HMI, photoelectric, wireless, vision technology and also safety solutions. Manufacturers from automotive to pharmaceuticals, electronics, food & beverages, chemicals, material handling, machine maker and many more industries use our products.

ViE TECHNOLOGIES SDN BHD

Booth No:2236

ViTrox Smart Manufacturing Solution

ViTrox introduces the Smart Manufacturing Solution, which integrates VisionXpert's AI-powered vision inspection, V-ONE's data-driven manufacturing intelligence, and AMR's autonomous mobility to deliver a seamless, automated production ecosystem that enhances productivity, traceability, and operational efficiency through intelligent connectivity and smart insights.

VST SOLUTIONS SDN BHD

Booth No:2258

Compact Series Laser Marking Machine on Production Line

Compact And Easy To Install, The Software Can Be Customized, Good Stability And Compatibility, Multi-Machine Combined Using With Anti-Duplicate Code Function

Buyer's Guide

Product Highlight

WEIDMULLER PTE LTD

Booth No:2131

Smart Industrial Connectivity Solutions

We support our customers with products, solutions, and services that manage power, signals, and data for electrification, automation, digitalization, and electrical connectivity.

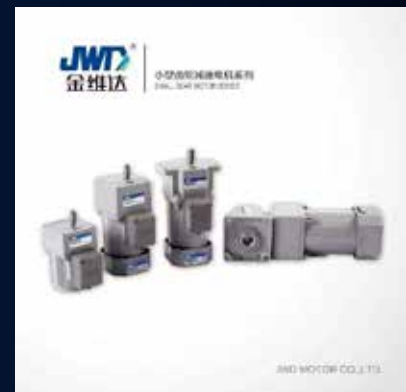

WEM DRIVE SYSTEMS SDN BHD

Booth No:2023

Planetary Gearhead

Planetary Gearhead Series is designed for high-precision and high-torque applications, featuring a compact structure, low backlash, and high transmission efficiency. These gearheads are widely used in automation systems, robotics, packaging machinery, and servo motor applications and offering reliable.

WEM MOTION CONTROL SDN BHD

Booth No:2023

Liquid Mixer with Stand

Liquid Mixer with Stand is a versatile mixing equipment designed for efficient blending of liquids. It typically features a portable or mounted agitator, such as a high-shear or paddle type, suitable for different liquid viscosities and applications.

Buyer's Guide

Product Highlight

WENTION CONTROLS SDN BHD

Booth No:2172

Panasonic, Autonics, Nidec, Estun, TRIO

Wention Controls establishing itself as the "go-to" source provider for automation products to clients, aiming to become the most reliable factory automation supply channel. We are authorized distributor for Panasonic, Autonics, Estun, Nidec, TRIO, Menics etc

NSW AUTOMATION SDN BHD

Booth No:2179

NSW Micro Dispenser

NSW High-precision dispensing machines designed for semiconductor and electronics manufacturing, delivering exceptional accuracy, consistency, and reliability in micro-dispensing applications.

DF AUTOMATION & ROBOTICS SDN BHD

Booth No:2177

Autonomous Mobile Robot (AMR)

One-stop Industry 4.0 AMR solution designed to optimize workflows, boost productivity, and reduce costs. From material transport to goods delivery, DF Automation & Robotics provides the right autonomous solution to streamline your operations efficiently and intelligently.

Buyer's Guide

Product Highlight

TT VISION TECHNOLOGIES SDN BHD

Booth No:2170

F4X

The F4X is an AI-assisted AOI Machine developed for the Semiconductor Front-of-Line Defect Detection. It incorporates a Rule-based Detection Gate + a Secondary AI-based Detection Gate. The inspection scope includes Defect Detection on the Substrate, Epoxy, Die, Wirebond, Encapsulants etc.

FSBM MES ELITE SDN BHD

Booth No:2173

FSBM MES ELITE

FSBM MES Elite offers a comprehensive Manufacturing Execution System (MES) that enhances productivity, traceability and quality control through real-time monitoring and analytics, helping manufacturers achieve full Industry 4.0 transformation across production lines.

autoMEX PENANG

MALAYSIA'S GATEWAY TO AUTOMATION TECHNOLOGY & SMART MANUFACTURING SOLUTIONS

4-6 NOV 2025 SETIA SPICE CONVENTION CENTRE, PENANG

**STEP INTO OUR
DIGITAL SHOWROOM**

Discover Exhibitors at AUTOMEX Penang 2025

A wireframe illustration of a robotic arm, rendered in a light blue color, set against a dark blue background. The background features a grid of thin white lines and scattered glowing blue dots, creating a high-tech, digital atmosphere. The robotic arm is positioned diagonally, with its joints and segments clearly defined by the wireframe mesh.
